

#### LINEAR REGRESSION EQUATION

$$\text{Al ICP-MS, in } \mu\text{g/L} = -21.799 + 1.167 * \text{Al cICP-MS, in } \mu\text{g/L}; R^2 = .999$$

**Confidence Intervals**  
Al ICP-MS, in  $\mu\text{g/L}$  vs. Al cICP-MS, in  $\mu\text{g/L}$

|                                | Coefficient | 95% Lower | 95% Upper |
|--------------------------------|-------------|-----------|-----------|
| Intercept                      | -21.799     | -52.662   | 9.064     |
| Al cICP-MS, in $\mu\text{g/L}$ | 1.167       | 1.153     | 1.181     |
